

**REMARKS**

This Preliminary Amendment is responsive to a *Notice to File Missing Parts of Nonprovisional Application* mailed March 23, 2004.

The *Notice to File Missing Parts of Nonprovisional Application* states that page 27 of the specification appears to have been omitted. The application as filed included thirty-two pages. All thirty-two pages were received by the Patent Office as evidenced by the enclosed copy of the postcard filed with the original. Of the thirty-two pages submitted, twenty-seven contained the specification, four contained the claims, and one contained the abstract. However, page 27 of the specification was blank. Accordingly, Applicant has amended the specification to delete page 27. In making this Amendment, Applicant has added no new matter.

Should the Examiner have any comments, questions or suggestions of a nature necessary to expedite the prosecution of the application, he is courteously requested to telephone the undersigned at the number listed below.

Date: May 21, 2004

Respectfully submitted,

John C. Alemanni (Reg. No. 47,384)  
Attorney for Applicant
